

1. Choose your range

Select your sport, cut and preferred design from the catalog.

2. Make your mark

Add your team name, player numbers and uploaded logos in the studio.

3. Build the roster

Enter each player, number, cut, top size, bottom size and quantity.

4. Approve the details

Confirm your quote, measurements, fabric and production artwork before payment.

COURTVISION APPAREL

MEASURING & FIT

Chest / bust

Measure around the fullest part with the tape level, without pulling tight.

Waist & hips

Measure the natural waist and the fullest part of the hips.

Length & inseam

Use a well-fitting garment as a reference. Record the units used.

Confirm the size chart

Request the approved chart for your exact garment. Reference catalog sizes are not factory approval.

COURTVISION APPAREL

ARTWORK & PRODUCTION

Logos

Use clear PNG artwork with a transparent background when possible.

Design files

Approve final AI or vector PDF artwork, measurements and factory patterns before production.

Reference illustrations

Converted designs contain editable vector color regions. Add new lettering and logos in the studio.

Final approval

Review spelling, numbers, placement, colors and every roster row before production.
